

Occupational Licensing Act 2005

Application and self-assessment form for Restricted Roof Drainage Endorsement

- This application may only be made by a licensed builder (individuals only and not a Licensed Entity)
- The self-assessment requires applicants to answer the two questions to confirm that they are competent to perform roof drainage work
- The Occupational Licensing (Restricted Roof Drainage Endorsement) Determination 2018 gives more details about what work or activities are permitted by an endorsement
- The completed form and self-assessment checklist must be sent to CBOS with the endorsement fee

Applicant details:

Name:

Your current Licence Number as a Builder:

Postal Address:

Phone No:

Email address:

Self-assessment checklist

1. Do you have experience of performing or supervising roof plumbing work or roof drainage work, as part of the construction of buildings? (Yes/ No)

- If you have qualifications related to roof plumbing, write them here:

2. Are you competent to perform the types of roof drainage work that are allowed by the Restricted Roof Drainage Endorsement? (details of these types are in the box below) (Yes/ No)

Types of roof drainage permitted by this endorsement include:

Work on a roof drainage system (associated with the performance of building work), comprising either:

- ✓ a new installation of a system or drainage components; or
 - ✓ an alteration or addition to an existing drainage system;
- including installation of these roof drainage system components:
- ✓ roof gutter (including box gutters)
 - ✓ roof valley
 - ✓ metal roof ridge
 - ✓ metal roof weathering
 - ✓ any flashing associated with any such gutter, valley, ridge, or weathering.

Applicant declaration

I have the competencies to carry out or manage the types of restricted roof drainage work mentioned above, and will be responsible for the standard of work in the same way as a licensed plumber
